Additionally, Contractor shall identify and protect all concealed or buried piping and cabling located on the Property. Contractor shall promptly report in writing to Owner all accidents occurring on the Property, giving full details and statements of any witnesses.

D. Contractor shall maintain a clean job site at all times, and clean up the area in which the Work is performed after each entry to perform the Work and remove any debris or other residue created in the course of performing the Work. If cleanup is not performed to Owner's satisfaction within seventy-two (72) hours after notice from Owner, Owner may, at its option, cleanup or otherwise remove any debris or materials from the Property. **8. INSPECTION.** Owner and its agents and employees shall at all times have the right to inspect all Work performed and materials furnished, installed, or used by Contractor in or about the Property. Such inspection(s) shall not relieve Contractor of any duty to ensure that the Work conforms to Laws and the requirements contained in the Contract Documents.

9. **INSURANCE.** Contractor shall, at its sole cost and expense, obtain and keep in force a policy or policies of the insurance set forth on Exhibit C.

10. **INDEMNIFICATION.** To the fullest extent permitted by law, Contractor agrees to indemnify, defend, and hold harmless Owner and its affiliates and each of their respective officers, directors, managers, shareholders, members, employees, representatives, agents, successors, and assigns (collectively, "Indemnified Parties") from and against any loss, liability, costs and expenses (including, without limitation, court costs and attorneys' fees) incurred by or claimed against Indemnified Parties, directly or indirectly, as a result of or in any way arising from Contractor's performance under this Agreement or Contractor's failure to perform its obligations under this Agreement. Contractor shall be liable to Owner for the entire cost thereof, which Owner may offset against the Contract Sum owed to Contractor.

12. **LIENS.** Contractor agrees that neither it nor any of its labor or material suppliers shall have, file, or maintain a lien for materials delivered for use in, or for work done in connection with its products or services, unless Owner fails to pay Contractor as provided hereunder; provided, however, if such failure to pay is the result of an alleged failure of Contractor to perform under this Agreement, Contractor and such suppliers shall not be entitled to file or maintain a lien. Conditional lien waivers in form and substance satisfactory to Owner from Contractor and its subcontractors and suppliers at every tier shall accompany all requests for payment and shall be furnished at other times upon reasonable request of Owner. Final lien waivers shall be provided upon receipt of final payment. If any such lien is filed or recorded, Contractor shall immediately cause it to be discharged of record. Should Contractor fail to do so, Owner may arrange for the lien to be discharged, and Vendor shall be liable to Owner for the entire cost thereof, which Owner may offset against the amounts owed to Contractor. Contractor agrees to indemnify and hold Owner harmless from any claims or costs in connection with such liens.

#### Scope of Work:

**Wet Fire Sprinkler System(s)** - Annually: we will visually inspect the hydraulic placard, vane type waterflow switch, alarm pressure switch, water motor alarm gong, valve tamper switch and spare sprinkler head box. We will inspect the Siamese connection for visibility, accessibility, identification signs, caps, leakage from check valve, drain valve and general condition of couplings and clapper assembly. We will inspect, from the ground level, any exposed sprinkler pipe, fittings, sprinkler heads, hangers and make any recommendations as to areas that, in our opinion, might be troublesome during cold weather month. We will perform a function test on any alarm pressure switch, vane type water flow switch, valve tamper switch and water motor alarm gong (if applicable). We will perform a main drain test on each wet sprinkler riser. We will operate each control valve thru a full range of motion from open to shut and back to open. We will perform maintenance on the OS&Y valve by lubricating the stem.

**Wet Fire Sprinkler System(s)** - Quarterly: we will visually inspect the hydraulic placard, vane type waterflow switch, alarm pressure switch, water motor alarm gong and valve tamper switch. We will inspect the Siamese connection for visibility, accessibility, identification signs, caps, leakage from check valve, drain valve and general condition of couplings and clapper assembly. We will perform a function test on the water motor alarm gong (if applicable). We will perform a main drain test on any wet system that has a backflow preventer or pressure control valve upstream from the wet pipe sprinkler system. Note: we are only required to flow-test one wet riser in a multiple riser configuration alternating between risers each quarter.

**Backflow Prevention Devices** - Annually - Test and certified annually as required by the city water department. All devices are inside. Extra fee for confined space. Pricing is based on the backflow inspection being conducted with the sprinkler inspections.

**Forward Flow Test Backflow Device** - Backflow(s) preventers are required to be forward flow tested to determine that the device is operating within the manufacturer's specifications. The forward flow test consists of flowing water through a test connection downstream of the backflow preventer. The required gallons of water flowing and system demand are determined by the most demanding hydraulically calculated sprinkler system at the property. While flowing the required gallons per minute, we will record the pressure on the system side of the backflow and compare it to the demand pressure noted on the hydraulic placard. For those systems not equipped with a suitable test connection; a measured test through the main drain valve will be performed and recorded. Note: a test conducted through the main drain test connection may not meet the demand of the sprinkler system, however it does meet the intent of the test as stated in NFPA 25.

**Fire Alarm and Detection Inspection(s)** - Annually: we will perform a functional test of all initiating and notification devices which include the following: pull stations, smoke detectors, air sampling duct detectors, beam detectors, fire phones, notification speakers, horn and strobe devices, door holders, tamper switches, waterflow devices and any other devices that may be connected to the fire alarm panel. We will functionally test all control functions related to the fire panel and ensure that primary & secondary power supplies are operating satisfactorily. If there is an elevator present, the customer must take the elevator out of service and provide access to the top of the elevator shaft so we can function test any smoke detector(s) in the shaft. Owner is to provide any lifts or ladder(s) above 6 feet in height which may be needed to access detection equipment. - Notifier NFW2-100 Panel, 4MP, 4SD, 5DD, 1WF, 2Tmpr, 47AV, Sensitivity

**Smoke Detection Sensitivity Testing** - Annually: each year we will perform a sensitivity test on 50% of accessible smoke detectors that are connected to the fire alarm panel; 100% of the devices will be completed within the two year period. Testing will be conducted with a listed and approved sensitivity testing device. Fire alarm panels that have the capability to test the sensitivity of each detector through the fire alarm panel will be the selected method. Owner is to provide any lifts or ladder(s) above 6 feet in height which may be needed to access detection equipment. - included in the annual fire alarm inspection pricing.

**Fire Alarm and Detection Inspection(s)** - Semi-Annually: we will perform a visual inspection of the remote annunciators, electromechanical releasing devices; pull stations, heat detectors, smoke detectors, duct detectors, and signaling devices. We will perform a functions test on the batteries to insure they are operating properly.

**Exclusions:**

- Overtime or Holidays
- Special Lift Equipment

**Notes:**

Inspections will be performed during normal working hours of 8:00 am to 5:00 pm Monday thru Friday unless other arrangements have been made.

Unless otherwise agreed, Contractor will issue an invoice upon completion of the Inspection and payment is due 30 days after completion of the Inspection. Contractor shall be under no obligation to perform a scheduled Inspection if Customer's account is past due.

5. **LIMITATION ON LIABILITY AND DAMAGES:** CUSTOMER AGREES THAT THE LIABILITY OF CONTRACTOR, ITS AGENTS AND/OR EMPLOYEE'S ON ANY CLAIM FOR LOSS ARISING OUT OF OR IN CONNECTION WITH THE PERFORMANCE OF THIS CONTRACT, INCLUDING CLAIMS FOR PERSONAL INJURY, DEATH OR PROPERTY DAMAGES, WHETHER ARISING IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE, SHALL BE LIMITED TO THE ANNUAL INSPECTION PRICE (AS STATED IN PARAGRAPH 3 ABOVE) FOR WHICH THE CLAIM AROSE. IF CUSTOMER DESIRES CONTRACTOR TO ASSUME GREATER LIABILITY, THE PARTIES SHALL AMEND THIS CONTRACT BY ATTACHING A RIDER SETTING FORTH THE AMOUNT OF ADDITIONAL LIABILITY AND THE ADDITIONAL AMOUNT PAYABLE BY CUSTOMER FOR THE ASSUMPTION BY CONTRACTOR OF SUCH GREATER LIABILITY. The Customer shall not be required to indemnify, hold harmless and defend Contractor from and against claims arising from Contractor's sole or concurrent negligence.

7. **Insurance:** Customer understands and agrees that Contractor is not an insurer and that insurance covering personal injury and property damage on the Customer's Premises shall be maintained by the Customer. Customer agrees to look exclusively to the Customer's insurer to recover for injuries or damage in the event of any loss or injury.

8. **Waiver Of Subrogation:** Customer agrees, on behalf of itself and all others who may make a claim under this Contract, to release and discharge Contractor from and against all hazards covered by the Customer's insurance, it being expressly agreed and understood that no insurance company or insurer will have any right of subrogation against Contractor.

9. **One-Year Limitation On Actions; Choice Of Law:** It is agreed that no suit, or cause of action, or any other proceeding shall be brought against either party to this Contract more than one year after the accrual of the cause of action or one year after the claim arises, whichever is shorter, whether known or unknown when the claim arises or whether based on contract, tort or any other legal theory. The laws of the State of Ohio shall govern the validity, enforceability and interpretation of this Contract, and any suits or causes of action upon this Contract shall be venued in Ohio.

11. **Duration Of Contract And Termination:** This Agreement shall remain in effect for one year from the date hereof and will automatically renew for successive one-year terms unless written notice of termination by either party is mailed to the other party no later than 60 days prior to the expiration of the then current term. 12. **Legal Fees:** Contractor shall be entitled to recover from Customer all reasonable legal fees incurred in connection with Contractor enforcing the terms and conditions of this Contract.

13. **Severability:** If any provision of this Contract is found by a court or other competent authority to be void or unenforceable in whole or in part, this Contract will continue to be valid as to the remainder of the affected provision and all other provisions of the Contract.

14. **Notice:** All notices by either party to the other shall be in writing, and shall be sent via Certified U.S. Mail, to the addresses shown above.

15. **Entire Contract:** This Contract supersedes all prior representations, understandings or agreements between the Customer and Contractor, written or oral. No changes in the terms of this Contract shall be binding upon either the Customer or Contractor unless communicated in writing and signed by a person authorized to do so.

16. **Counterparts And Multiple Originals:** This Contract may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together constitute one and the same instrument.
