Total Recurring Services:				58.33	\$58.33

Notes

Note	Modified Date	User
SMG to provide a monthly service and maintenance agreement for the existing Cornell 12 Zone Area of Rescue System composed of 1 Master Station in Lobby and 10 Substations located in each stairwell. This proposal covers annually testing and inspections of the system in entirety and covers any need the building engineer or owners may have. Since the existing system is 12 years old this agreement solely covers service and maintenance. Agreement does not cover a full system replacement in the case that it simply fails due to antiquity and obsolete parts in the future.	12/23/2020 12:07:37	John Sawyer
