ANNUAL INSPECTION SCOPE

Inspection and testing shall be performed on the system(s) referenced below and includes a report to be submitted promptly to the Purchaser identified on the cover page and indicated in the execution block below ("Purchaser") outlining all items needing maintenance, repairs and/or replacements, which, in the judgment of Shambaugh & Son, L.P. ("S&S"), may be necessary.

S&S shall inspect and test the fire suppression and/or alarm systems in accordance with the applicable NFPA requirements and per the frequency schedule listed herein, and S&S shall have no greater responsibility than to perform per said NFPA requirements. (Frequency determined by Purchaser's desire if they deviate from NFPA). All work to be performed in accordance with the terms and conditions of this Agreement. The inspections and tests shall be performed by qualified inspectors meeting any and all requirements of the applicable Authority Having Jurisdiction ("AHJ").

WORKING CONDITIONS

- This proposal and, if executed, Agreement is/are based on the work being performed from an unobstructed concrete floor during normal working hours (Monday – Friday, excluding holidays, between 7:00 AM and 3:30 PM).
- A representative of Purchaser shall provide S&S with access to all alarm codes and each sprinkler room and any other locations as may be required, to put the equipment listed above ("Equipment") on test for the duration of the work and services described herein ("Work"). Upon completion of the Work, all Equipment shall be taken off test mode and put back in service. In the event the Equipment has malfunctioned after S&S has left the premises, any repairs shall be performed by S&S upon request by Purchaser and shall be paid on a time and material basis plus markup for overhead and profit at S&S's standard rates ("T&M").
- S&S is not responsible for malfunctions to Equipment during the Work. All repairs will be made on a T&M basis as described above and are outside the scope of Work described in this Agreement.
- All Work accepted and identified in the scope described herein shall be performed per applicable codes. Upon completion, S&S shall provide Purchaser with a report with pricing to repair any deficiencies that were observed during the inspection. This Agreement does not require, nor does the Work include a requirement, that S&S thoroughly review or analyze the Equipment in a manner to identify all deficiencies within the Equipment; rather, S&S is only required to perform the Work as expressly required by applicable code unless the Work description expressly includes additional responsibilities.
